Principles

- UIF is a freeroam server. We want every player to be as free as possible. We do not want to limit player freedom with lots of rules. The idea is that you can do anything as long as you do not severely damage other players' gameplay.
- This means players can use any hacks, except for the hacks that are disallowed in this policy.
- This also means players can do as many good and bad things as possible as long as it is not disallowed in this policy.
- Finally this means that players can use any name and say whatever they want to say, except for the cases that are disallowed in this policy.
- All admins should share this philosophy with players and act according to this philosophy. Avoid unnecessary interference with player freedom.

Behavior

- You are expected to have read and understand the latest up-to-date contents of the policy.
- Nobody, except Staff Managers and up, is allowed to represent UIF by means of announcements, statements or updates even in case of emergency situations.
- Private information (this includes anything that is not to be seen or available to the general public) may not be exposed to anyone.
- Respect other people.
- Do not use cheats, even with alternative accounts.
- Do not make defamatory remarks.
- Do not use offensive language.
- Do not abuse your status or commands for personal gain, intimidation, manipulation, etc.
- When making admin decisions, you need to be impartial and independent.

Security

- You are responsible for your own account(s) related to UIF.
- Never share your admin account/password.
- Use a complex password with a combination of symbols, digits and letters.
- Do not use the same passwords for UIF as on non UIF related services. This minimizes the damage if they're cracked.
- Use different passwords for each UIF related service, e.g. don't use the same pass in SA-MP as on Discord. This minimizes the damage if they're cracked.

Loyalty

- Admins are not allowed to take part in anything that could cause conflicts of interest. This includes, but is not limited to:
 - o Owning, operating or managing a competing server /community (SA-MP, MTA SA).
 - o Playing on or being involved with other SA-MP servers/communities.
- Admins are not allowed to directly or indirectly support or have contact with persons or organizations that are hostile against UIF.

Activity

- You need to visit the UIF Discord Server on a regular basis. Important messages could be waiting for you.
- **Level 4 and below** are prohibited from remaining AFK for more than 20 minutes in-game. Failure to comply will result in a /kick by any Head Admin and up from the game, and continuous violations (3 times) will lead to expulsion of the admin from the admin team as a result of subsequent strikes.

Miscellaneous

- All admins are required to join the UIF Discord server. Any admins found to not be in the Discord server will be removed from the staff team.
Invite Link: <http://uifserver.net/discord>
- As a normal admin (level 1-4), you are to strictly follow the instructions given and give speedy response to any inquiries made by any Head Admin and up.

Part 2 - Procedures

Return Procedure

- If demoted upon request, you can ask for re-appointment only after one year has passed since your demotion. Requests should be sent to a Staff Manager.
- If demoted forcefully, you can ask for an appeal hearing to be held to appeal your demotion by sending a request to a Staff Manager. If your request gets accepted, your hearing will be carried out in front of the entirety of the SA+ team in a private channel with them, and the final decision will be taken by the Staff Manager.

Inactivity Procedure

- If you are becoming inactive, you have to post an inactivity notice in the respective channel for it in UIF discord, in the following format:

Account ID:

Period of inactivity:

Severity of inactivity:

Reason for inactivity:

- Upon arrival from inactivity, it is important that you alert the higher staff of your return to the server. In order to do this, you must reply to your original inactivity request on the respective channel, mentioning your intention of returning to the server.
- Inactivity is allowed for up to 2 months, provided it is reported following the inactivity procedure in the policy. If found inactive without having reported this, you will be fully demoted and cannot request re-appointment for another year.
- Head Administrators and Staff Managers are allowed up to 6 months of inactivity before any action will be taken against their account. Server Manager and higher are never demoted and are outside the scope of this procedure.

Name Change Procedure

- If you changed your name, you have to inform the rest of the team on the respective channel for it in UIF discord, in the following format:

Account ID:

Old name:

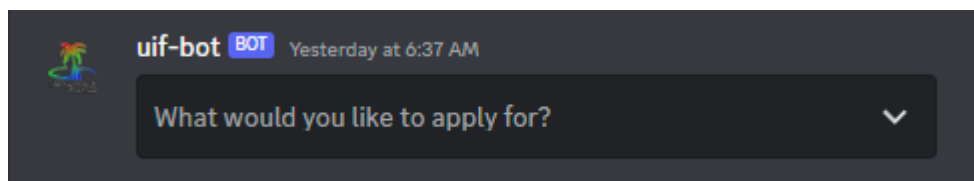

New name:

Reason (optional):

- It is not required if you are adding/removing a group's tag to your name.

Demotion Request Procedure

- An admin can request to be demoted for any reason at any time, by filling out the form within Discord in the '#requests-staff' channel. See below.

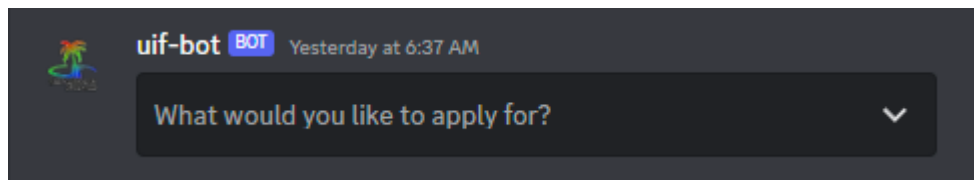

A screenshot of a Discord message from a bot named 'uif-bot'. The message is timestamped 'Yesterday at 6:37 AM'. It contains a form with a dropdown menu that currently displays the text 'What would you like to apply for?' and a downward-pointing chevron icon on the right side of the dropdown.

- The demotion request procedure may not be abused for personal gain. If you are going to be inactive, you should report it by following the inactivity procedure.

Promotion Request Procedure

- As Admin level 1 or 2, you cannot request to be promoted. You will not have the right to apply for Admin level 2 or above

- As level 1 and 2, your promotion will be solely based on your performance and management's observations
- Do NOT contact the Management team in regards to your promotion. If you do, your promotion will immediately be delayed for a longer time and may even lead to demotion.
 - o Level 1 > 2 = (Based on Management's observation of the Admins' performance)
 - o Level 2 > 3 = (Based on Management's observation of the Admins' performance)
- As Admin level 3, you can request to be promoted after holding your current level actively for a specific time.
 - o Level 3 > 4 = (100 days holding the current rank)
 - o Level 4 > 5 = (Management's observations)
 - o Level 5 > 6 = (Management's observations + exceptional performance at moderating the Discord server)
- The admin has to request for promotion by filling out the form within Discord in the '#requests-staff' channel. See below

- It is not granted that you will be promoted after holding a level for a specific amount of time. The higher the level requested, the higher the expectations and threshold for promotion.
- Do NOT contact any admins regarding your promotion request. If you do, your request will immediately be denied and may even lead to disciplinary measures.
- Head Admins and Senior Admins process promotion requests.
- The admins discuss the promotion request on their respective channels. All Senior Admins and Head Admins may provide feedback.
- The decision is taken based on a voting system. All Senior Admins and Head Admins have an equal vote, however the Chief of Staff may override the voting result.
- Admins are required to share their views on the latest build on the UIF discord. Active involvement with server development, testing, etc. is taken into account as well.
- The Head Admin always publishes the decision and provides a motivation for this decision.

Demotion Appeal Procedure

- UIF management has the absolute and in most cases, the delegated authority to alter the levels and terminate staff member status of any admins ranked lower than them, at any given time. Be it for lack of performance, insubordination, negligence of duties and responsibilities or due to incidents of any kind involving any particular admins. Irrespective of that, if any admins or ex-admins believe that they have been demoted wrongfully, UIF's top management offer such admins the possibility of appealing for reversal of their demotion, a process which is presided over by the Chief of Staff. Upon appealing of a demotion by an admin, a fair hearing takes place on Discord, in participation with the demoted admin, Senior Admins and Head Admins who express their opinions as to whether or not the admin should be reinstated back to their original level. This process is handled by the Staff Managers and

the Staff Managers are the ones to be contacted for requesting an appeal hearing. Only the admins who have been demoted due to incidents of any kind are eligible for this process and it does not include admins who have been demoted due to inactivity or at their own accord; demotion by request.
